Today's bathroom is no longer merely a bathing space, has gradually become a place where people enjoy life and completely relax their bodies and minds. Therefore, a variety of functions in the bathroom is a major trend in contemporary design. It is also what we Fenbe want to pursue and focus on.

Bathroom cabinets do not have the same consistency as kitchen cabinets. You can create a variety of styles of cabinets anywhere in the bathroom; it can be a corner cabinet, a curved cabinet or a box cabinet, or it can be placed behind a door. Strip-shaped cabinet or detachable combo vanity cabinet. But they must echo the overall design of the bathroom, from the color of the material to the shape and size must be coordinated with other facilities, otherwise it will give people a feeling of superfluous. Fenbe can do it.

The Natural Freshness Bath Cabinet is one of the mainstream fashion bath cabinets. The refreshing clean white makes the bathroom as clean and fresh as the trees in the rain.
